SYNOPSIS

In 'Echoes in the Dark,' Sarah, a once-celebrated detective, is now a shadow of her former self, haunted by a case that went tragically wrong. Driven by guilt and a desire for redemption, she finds herself drawn to an abandoned warehouse rumored to be the hideout of a mysterious figure tied to her past. As she navigates the labyrinthine corridors, Sarah is forced to confront not only the physical dangers of her surroundings but also the psychological scars that continue to haunt her. The warehouse becomes a battleground where shadows and echoes reveal truths she has long buried. With every step, Sarah edges closer to the truth, but the shadows hold secrets that could destroy her. Unbeknownst to her, the mysterious adversary has orchestrated this confrontation, turning Sarah's quest for redemption into a perilous game of survival. As her flashlight flickers and darkness closes in, Sarah must rely on her instincts, confronting both the past and the present to escape the shadows once and for all.

TARGET AUDIENCE

Fans of psychological thrillers and mystery, particularly those aged 25-45 who enjoy suspenseful narratives with strong female protagonists. The film will appeal to viewers who appreciate complex characters and intricate plots, as well as those interested in stories of redemption and confronting inner demons.
